

IN THE CLAIMSRECEIVED
2-19-03

The following changes to the claims are submitted herewith:

1-16.(cancelled)

1/17.(new) A method of enabling a user to access content, the method comprising:
identifying by a user a device to which a plurality of contents will be broadcasted and the device having an associated user interface for locally controlling the device;
selecting by the user a future broadcasted content from the plurality of contents;
setting up the device to record the content when the content is broadcasted to the device;
and
wherein
the selecting and the identifying are done over the Internet via a web site different from the local user interface.

2/18.(new) A method of enabling a user to access content, the method comprising:
providing user access to a server via a web site on the Internet;
enabling identifying on the web site a device of the user to which a plurality of contents will be broadcasted;
selecting by the user a future broadcasted content from the plurality of contents;
setting up the device by the server through a connection from the server to the device to record the future broadcasted content.

3/19.(new) A system comprising:
a server on the Internet accessible to a user via a web site;
a device accessible by the server;
wherein,
the server is configured to receive input from the user via the web site, the input including a selection of a content from a plurality of contents that will be broadcasted to the

device and a request to record the content and in response to the input, the server is configured to set up the device to record a future broadcast of the content.

⁴₁20.(new) The system of Claim ³19, wherein the device is accessible by the server over the Internet.

⁵₁21.(new) The system of Claim ³19, wherein the device is accessible by the server over a phone line.

⁶₁22.(new) The system of Claim ³19, wherein the selection of the content from the plurality of contents is done from an electronic program guide on the web site.

⁷₁23.(new) The system of Claim ³19, wherein the web site is accessible to the user from a personal digital assistant of the user.
